

# PROBE SEEN AS ATTACK BY BACCHUS

Inquiry Into Private Use of City Property Is Political Trick, Street Department Head's Statement Declares

Commissioner Soderberg With Municipal Attorney Raid Alviso Gun Club Grounds at 2 a. m. in Investigation

Several sections of aged sheet iron pipe loaned to an Alviso gun club and a nocturnal raiding party equipped with flashlights and led by Commissioner of Public Works Frederick Soderberg and City Attorney H. L. Hagan in a descent on the preserves of the club, today appeared as the high lights of the investigation commenced yesterday by Commissioner Soderberg into alleged misappropriation of public property by certain unnamed city officials and employees.

The subject of the investigation, which Commissioner Soderberg declined to give out yesterday when he secured authority from the City Council to make the probe himself, was divulged this morning when Commissioner of Streets William J. Bacchus cleared up the mystery in a statement declaring that he is the official under investigation, and that the move is a "petty, mean political trick" to discredit him.

"This investigation is a petty farce concocted by Commissioner Soderberg and City Attorney Hagan to bolster up their political fences by attempting to attack me," the subject declared under the investigation. "It is a quantity of old abandoned sheet iron pipe that has been lying useless on the public dump, and that has never been out of my hands. No junkman would give ten cents for the lot."

PIPE IS WORTHLESS, BACCHUS DECLARES

The pipe about which the investigation involves is located in two sections of sheet iron pipe that once was used to pump sand onto the dump heap, but that has been abandoned for a number of years, according to Bacchus, and in many places on the dump has been entirely buried under refuse. The buried sections involved in the controversy were loaned by Bacchus, he states, to the Alviso Gun Club for the purpose of doing some temporary drainage work, and have never been out of his jurisdiction.

Last Friday night, according to Commissioner Bacchus, Hagan and Commissioner Soderberg, accompanied by a man calling himself a sergeant of police, secured two flashlights from the police department plain clothes bureau and visited the gun club grounds at 3 o'clock Saturday morning. The fourth member of the party, according to Bacchus, was W. W. Thompson, a former employee of the street department.

Commissioner Bacchus declares that the four broke into the gun club premises, completely covered the party flashing his policeman's star when the watchman appeared. The pipe, which was stored temporarily in a small shed, was removed and taken away in a truck. The result of the visit was the submission before the council yesterday by Commissioner Soderberg of a report alleging the misappropriation of city property by unnamed officials and employees and the request that he be delegated to investigate the case.

# Body Found in Bay Furnishes Murder Puzzle

Officers Seeking Clues to Identity of Man With Fractured Skull

ALAMEDA, March 9.—Murdered and his body thrown into the bay is the problem which overcame an unidentified man whose body was found floating in the water off Bay Farm Island just before dusk last night. The body, in an advanced stage of decomposition, is at the Alameda branch morgue, and Chief of Police Walter O. Jacoby and Deputy Coroner H. C. Gallagher are today probing into the case. The man's skull given evidence of having sustained a fatal fracture. Dr. E. V. Tiffany, the autopsy surgeon for the coroner's office, will perform an autopsy this afternoon and the autopsy findings will very likely prove or disprove the murder theory.

AUTHORITIES UNDERTAKE THOROUGH INVESTIGATION

The body is that of a man of middle age and average build, near to middle years, with dark hair, and the features are practically unrecognizable. The body was found by Joseph Silva, a Bay Farm Island resident, who was fishing for crabs on the western end of the island. The general appearance and dress indicate that the body is that of a seafaring man or water front employee, perhaps a sailor. As soon as more detailed information is available the police and coroner's office will undertake a comprehensive investigation to lead to the man's identity. The police believe the rest of the mystery will be easily solved.

# American Murdered By Mexican Employee

(By Associated Press) WASHINGTON, March 9.—Raymond Corcoran, an American citizen, was murdered by his Mexican employee, according to dispatches to the state department today from the American consul at Nuevo Laredo.

Corcoran's body had been requested to be sent to Mexico City, but his request was refused because of press of business. The clerk then departed without leave and after a few days returned in an intoxicated condition. He is alleged, and shot Corcoran in the back, the latter dying instantly.

Corcoran's body was brought across the border and buried at Laredo, Tex. His mother, Mrs. Anne O'Malley Sullivan, of New London, Wis., was notified of her son's death.

The murdered man served in the war and was honorably discharged.

# LODGE HITS PACT NOTE OF WILSON

Republican Leader Criticizes "Unfair Reflection Upon France" and the President's Attitude as to Fiume Matter

WASHINGTON, March 9.—What he termed an "unfair and unfortunate reflection upon France" in the President's latest letter to Senator Hitchcock on the treaty was severely criticized in the Senate this morning by Senator Lodge, a Republican leader.

Lodge also declared the President's attitude in the Adriatic dispute to be wrong and said Italy played a part in the Fiume matter only as a strategic base to protect her from future invasion. Senator Lodge declared the President "had reflected unjustly on the allies in that paragraph of his letter in which he stated that 'militaristic ambitions and imperialistic qualities are by no means dead even in the councils of the nations whom we most trust and whom we most desire to be associated in the tasks of peace.'"

WILSON WRONG ON ADRIATIC IS CLAIM

"I feel we owe France a very great debt of gratitude for her part in the war," said Lodge. "I am sorry the President saw fit to say what he did about France. I regret also that the President has been so careless in his handling of the Adriatic dispute. That Italy should desire to protect herself by holding the strategic point in the Adriatic is only right under the pact of London, which when has it made a crime for Italy to protect herself? She has acted in this as a strategic base with which to protect herself from future war."

# Richmond Shy Of Forming New Water District

Plans of Berkeley to Join with Richmond in the formation of a water district independent of other Eastbay municipalities were given a setback today with the news that the city council in Richmond, in meeting last night, had refused to pass the ordinance necessary before a utility district election may be called.

During the argument Councilman E. J. Garrard said that the Eastbay Water Commission would have its report ready by May 1. While the Berkeley proponents of the plan point out that Richmond's action was merely to postpone action for a week and that, under the city charter, it still has until April 1 to determine whether or not it will make a utility district election, there had been no previous intimation other than that the resolution would have smooth sailing in the neighboring city.

From Richmond comes the word that a number of the councilmen have taken a stand in favor of the Belvoir project in preference to that of the Alpine dam and that a decision will be made against the measure, Berkeley, where it requires thirty days for an ordinance to become effective, has agreed to postpone its action until the preliminary steps for a district election the Berkeley position will be left in doubt.

# NAVY HEADS PROLONGED WAR: SIMS

Senate Committee Told by Admiral That Department's Failure to Act Lengthened the Conflict Four Months

WASHINGTON, March 9.—Rear Admiral Sims today told the Senate committee investigating the navy's conduct of the war that the failure of the Navy Department to act promptly on recommendations and proposals had prolonged the conflict by at least four months.

Declaring that 3000 lives were lost and \$100,000,000 spent every day of the war, the admiral said the consequences for his statement were obvious. Admiral Sims said his criticisms were directed at the navy's work in 1917 and had nothing to do with the magnificent way the navy functioned in 1918 after it really got into the war.

NAVY UNPREPARED, CHARGES SIMS

When Sims said "was not properly prepared in April, 1917," he denied that his statements constituted "an attack" on anyone and characterized as "ridiculous" statements that he was attacking civilian control of the Navy Department, which, he said, was essential. "I am at the end of my career and have nothing to gain and all to lose," he said. "I wish to be set right in the eyes of the country and to refute widespread criticism that he was showing mud at the navy." Admiral Sims said he was not raising no question of the efficiency of the navy's participation in the war, viewed in its entirety and without regard to the time element, and was unable to understand the criticism of the Navy Department's method of conducting its participation in the war.

## GRIST OF SPEEDERS IN COURT

Charged with speeding on a motorcycle at the rate of forty-six miles an hour, Walter Johnson, 3699 High street, was fined \$25 by Police Judge Mortimer Smith this morning and deprived of his operator's license for thirty days. He was arrested by Officer A. E. Stebbins at High and Congress streets.

Francis Lyman and Earl Burris were fined \$10 each by Judge Smith for speeding, and George Penz was assessed \$10 by Judge Samuels on a speeding charge.

Martin de Noy, salesman, 1707 O'Farrell street, San Francisco, pleaded guilty in Berkeley police court to driving an automobile at thirty-three miles an hour this morning and will be sentenced on Thursday. He was arrested at San Pablo avenue and Folger street.

Claiming that a motorman on an Ashby avenue car did not see her signal as they backed into her automobile, Mrs. Milton Palmer, 203 Hillcrest road, Berkeley, places the blame for a battered machine up to the street car man. Neither Mrs. Palmer nor Mrs. E. L. Seymour, who was riding with her, was injured. The police are trying to learn the identity of the motorman.

## New Record Made by Navy Yard Mechanics

MARE ISLAND, March 9.—Mare Island employees have made another record. Press despatches from Tacoma say that the destroyer Gwin last Saturday, during a test, developed a speed of 30.32 knots, or better than 35 miles an hour, for four hours. Later in the day she was officially accepted. She had been built by a private plant on Puget Sound. Her turbines gave considerable trouble and they were removed and sent to Bremerton. The mechanics there were unable to place them in first class running order and finally they were placed on flat cars and shipped to Mare Island where the defects were remedied.

The navy repair ship Melville with Rear Admiral H. Wiley, is due Wednesday. The admiral will transfer his flag to the Brooklyn, due to leave March 15 for San Diego and then to Hawaii.

The cruiser Birmingham will leave next week for San Diego.

Jerry Downs was signed Monday to hold down an outfield position on the Mare Island Shipbuilders' club.

## In the Political Field

CHICAGO, March 9.—Fifty thousand applications are already in for seats at the Republican national convention. At the utmost there will be 13,158 seats, including about 1000 for delegates. Several hundred additional spectators will be snuggled in, but the municipal laws against standing in the aisles will be strictly enforced, so a great many people will be disappointed. Men prominent in the party say the demand for tickets is indicative of an expansion of a tremendous fight before the Republicans settle upon a candidate who will be acceptable to all interests.

### JOHNSON ATTACKS MINNESOTA PRIMARY

SENATOR JOHNSON, Republican again assailed the Republican State primary for presidential nomination in the opening address of his Minnesota campaign here. In a speech he reiterated declarations that the primary was arranged in the interests of General Wood.

"The American expedition to Siberia is an instance of what would happen from participation in the League of Nations," said Senator Johnson in touching upon national issues. "We went there without a policy and we came out without a policy. The expedition was a failure except to arouse distrust against the United States all over the world."

COLUMBUS, O., March 9.—While speaking kindly of Senator Warren G. Harding personally, Ohio supporters of General Leonard Wood for the Republican presidential nomination in conference condemned the senator's campaign management.

CHICAGO, March 9.—Wall H. Hays, chairman of the Republican National Committee, is firm in his statement that it is the duty of the person holding his present position to elect and not select the candidate. He says:

"I have repeatedly stated my belief that the duty of the chairman of the National Committee is to elect the candidate and not select him. I shall square the performance with my promise. There which will directly or indirectly influence in any way the result of any contest in any state for delegates to the Republican convention nor the choice by the delegates to the convention."

"It makes no difference what may be said by any person for any reason at any time in any place in the country indicating any other wish of mine. It simply is not true. I am sure that any who would suggest another course will on reflection approve my irrevocable position in this regard."

### CONVENTION COMMITTEE MEETS THIS MORNING

CHICAGO, March 9.—At 10 o'clock this morning at the headquarters of the Republican National Committee, Congress Hotel, there will be the first of the monthly informal meetings of the National Committee. There will also be a meeting of the convention committee of the national committee to complete the arrangements for the convention.

## Tenants and Landlords Clash Over Rent Rates

Oakland inaugurated its fight against high rents yesterday when tenants and landlords engaged in verbal combat at the local Housewives' League meeting in the council chambers of the city hall. Among those who participated in the discussion were Miss Edith Clibbe, treasurer of the Apartment House Owners and Managers' Association, Mrs. Lucy Barker, Mrs. H. J. Platts, Mrs. Ella Mitchell, Mrs. W. T. Cleveland, and others.

"Any woman who takes children into an apartment house should be penalized," declared Mrs. Cleveland. "If she can spend \$75 a month in rent she had better buy a house. There is no occasion for housewives to worry about the people who can pay \$125 to \$175 a month for two rooms."

A report by Lydia Wolf had to do principally with the Marboyd Apartments at Twelfth and Myrtle, where she was formerly a tenant. She declared that two room apartments which had formerly rented for \$37.50 a month had been raised to \$55; that three room apartments at \$35 had been raised to \$65 and the service had been cut down. Mrs. Wolf declared that the rent of the last year over 16 per cent had been realized on the investment.

That it costs from \$900 to \$1000 a room under present building conditions to erect an apartment house, irrespective of furnishings and equipment, was announced by Mrs. Mitchell. However, Mrs. Mitchell admitted that a two room apartment house was netting 24 per cent on a quarter million investment.

Mrs. Barker suggested that the women should pay attention to traffic laws and saving life rather than bothering with landlords and tenants.

Increase in rentals is discussed on the floor of the meetings of the Apartment House Owners and Managers' Association, according to Miss Clibbe. She claimed rents today are reasonable. The members of the Housewives' League were invited to the March meetings in Stiles hall, Berkeley, next Tuesday night.

### RENT CASES GO TO COURT

SAN FRANCISCO, March 9.—A writ of mandate from the Supreme court is being asked for today by the Tenants' Protective Association in an effort seeking to have placed under the State Railroad Commission rental rates of hotels and apartment houses. Steps have been taken toward having apartment houses declared a public utility. An opinion is being sought by Attorney Matthew Brady concerning criminal prosecutions under the penalty clause of the public utility act. City Attorney George Lull has been asked for an opinion as to whether the municipal assessments on apartment and hotel properties where it is shown there has been an unreasonable increase in rents. City Attorney John McElroy has declined to take the case.

Office had neither the legal or financial means of assessing such property in proportion to rents received. Houses and hotels from apartment actual incomes, according to Justice Wardell, collector of Internal Revenue. He claims no means of determining whether landlords are profiteering or not.

More than 2100 renters have been enrolled in the Protective Association.

## BRASLAW VOICE BEST OF SEASON

By ROY HARRISON DANFORTH. Neither the inherent beauties of Sophie Braslaw's voice, the emotional potency which invests it, her intelligence nor her personal charm will quickly be forgotten by those who were fortunate enough to hear her recital at the Auditorium Theater last evening. Sophie, indeed, they are to be considered, since they listened not only to the most impressive contralto who has sung to us this year but one of the finest of our season's voices of any description.

In richness, depth, vibrancy Miss Braslaw's singing reminds forcibly of the earlier Schumann-Heink. Her voice is of true contralto quality; it is not denied either range or a lyric upper segment of damask softness. She controls it with the greatest ease, particularly as to expression. The dramatic nature is indeed, ever discernible, yet not to a disturbance of concert requisites. Those songs—and there were several in her list—which permitted scope for a more passionate intensity were particularly admirable.

Yet one will cling fast to memories of little lyric things she sung, like Cecil Forsyth's "Kiss Me, Love," "Jasmine Door," "Old Folks at Home," and the greater yet similar "Mon coeur s'ouvre a la voix" of Saint-Saens. Of the other sort the sort that most directly established her kinship with the opera, an air from Gluck's "Orpheus" was sung with tremendous power; Donizetti's "Lucella, Borgia" drinking song with vivacity; and the "Robin Woman's Song" out of Cadman's "Shanewis" with startling dynamic opulence, yet unmarred through tonal leaps and plunges by the slightest inaccuracy.

This was Miss Braslaw's first recital here. She will be warmly welcomed if she comes again.

## Missing Chemist Is Believed Sick

Less of memory is believed by friends of George H. An excess of acid in the stomach sours the food and starts fermentation. Distressing gases form. Your meals don't digest but lay like lumps of lead. Then you have heartburn, flatulence, fulness, belching, headache, and real misery in the stomach and intestines.

A few tablets of "Pape's Diapensin" bring relief almost as soon as they reach the stomach. "Pape's Diapensin" costs little at drug stores.—Advertisement.

## BANDITS REFORM: GIVE BACK LOOT

Deserving a life of crime and violence because of the advice of the first man whom they held up and robbed, the four young highwaymen who kidnaped R. C. Bitterman, Rotary club director and optician of Oakland, in an automobile and stripped him of his valuables, yesterday sent one of their number to return a stolen watch.

Bitterman says that the watch, doorbell of his home at 2224 Broadway street, early yesterday morning, he found one of the bandits who gave him back his watch and said that he and his pals had reformed. Bitterman says he told the watch he refused to accept a return of the money.

On Monday, March 1, Bitterman was standing on the corner of Broadway and East Twenty-fourth street when the four youths kidnaped him at the point of a gun in a dark automobile and robbed him. Bitterman did not report to the police until Saturday.

## Merchant Held as Prohibition Violator

Manuel Franco, merchant at 1530 Fifth street, was arrested last night by Patrolman P. A. Pierce on a charge of violating the prohibition act. This morning he was taken to San Francisco by federal officers. A quantity of liquor was seized by the police in the rear of Franco's store.

# President Unyielding As to Treaty Stand In Letter to Hitchcock

WASHINGTON, March 9.—(By the Associated Press).—The text of President Wilson's letter on the treaty to Senator Hitchcock, the administration leader, follows:

My Dear Senator Hitchcock: I understand one or two of your colleagues do not know what my views are with reference to Article 10 of the League of Nations and the ef-

fect upon the league of the adoption of certain proposed reservations to that article. I welcome the opportunity to throw any light I can upon a subject which has become so im-

portant to the cause of peace. I am glad to see that the moral obligations which are expressed in the terms of this article of the covenant. We won a moral victory over Germany far greater even than the military victory won on the field of battle, because the opinion of the world swung to our support and the support of the nations associated with us in the great struggle.

I did so because of our common possession and promise that we meant to establish "an organization of peace which should make it certain that the combined power of free nations would check every invasion of right and serve to make peace and justice the more secure by affording a definite tribunal of opinion to which all must submit and by which every international wrong, just as it cannot be amicably agreed upon by the people directly concerned shall be sanctioned."

This promise and assurance were written into the preliminary of the armistice and into the preliminary of the peace itself, and constitute one of the most sacred obligations ever assumed by any nation or body of nations. It is unthinkable that America should set the example of ignoring such a solemn moral engagement.

I feel that I could not look the soldiers of our gallant armies in the face again if I did not do everything in my power to remove every obstacle in the way of the adoption of this particular article of the covenant, because we made three pledges to them as well as to the rest of the world, and it was to this cause they deemed themselves devoted in a spirit of crusaders. I should be forever unfaithful to them if I did not do my utmost to fulfill the high purpose for which they fought.

I think we can dismise from our minds the idea that it is necessary to stipulate in connection with Article 10 the constitutional methods we should use in fulfilling our obligations under it. We gain nothing by such stipulations and secure nothing not already secured. It was understood as a matter of course at the conference in Paris that whatever obligations any government assumed or whatever duties it undertook under the treaty would have to be fulfilled by its usual and established constitutional methods of action.

Once or twice in meetings of the conference, when the treaty was under consideration, "reservations" were made to that effect by the representatives of individual powers and these "reservations" were invariably received in the way in which men who have met for business and not for talk always receive acts of scrupulous supererogation—listened to with indifferent silence, as such men listen to what is a matter of course and was not necessary to say.

There can be no objection to explaining again what our constitutional method is and that Con-

gress alone can declare war or determine the cause of occasions for war and that it alone can authorize the use of the armed forces of the United States on land or sea. But to make such a declaration of war certainly is a work supererogation.

I am sorry to say reservations that have come under my notice are almost without exception interpretations of the articles to which it is proposed to attach them, but in effect virtual nullifications of these articles.

Any reservation which seeks to deprive the league of nations of the force of Article 10 cuts at the very heart and life of the covenant itself.

Any league of nations which does not guarantee as a matter of independence and integrity of each of its members might be hardly more than a political society, and is ineffective in operation as the agreement between Belgium and Germany which the Germans violated in 1914. Article 10 represents the resolution by Great Britain and Japan, which before the war had begun to find so many interests in common in the Pacific, France by Italy, by all the great fighting powers of the world, of the old pretensions of political conquest and territorial aggrandizement.

It is a doctrine in the world's affairs which must be recognized or there is no secure basis for the peace which the world so longingly desires and so desperate need. If Article 10 is not adopted and acted upon, the governments which reject it will, I think, be guilty of bad faith to their people whom they induced to make the infinite sacrifices of the war by the pledge that they would be fighting to redeem the world from the old order of force and aggression. They will be acting also in bad faith to the opinion of the world at large to which they appealed for support in a concerted stand against the aggressions and pretensions of Germany.

If we are to reject Article Ten or so to weaken it as to take its full force out of it, it would mark us as desiring to return to the old world of jealous rivalry and misunderstandings from which our gallant soldiers have rescued us and would leave us without any vision or new conception of justice and peace. We would have learned no lesson from the war but gained only the regret that it had involved us in its maelstrom of suffering. If America is awakened as the rest of the world has to the vision of a new day in which the mistakes of the past are to be corrected, it will welcome the opportunity to share the responsibilities of Article Ten.

It must not be forgotten, senator, that this article constitutes a renunciation of every ambition on the part of powerful nations with whom we were associated in the war. It is by no means certain that without this article any such renunciation will take place. Militaristic ambitions and imperialistic policies are by no means dead even in the councils of the nations whom we most trust and with whom we most desire to be associated in the tasks of peace.

Throughout the sessions of the conference in Paris it was evident that a militaristic party, under the most influential leadership, was seeking to gain ascendancy in the councils of Europe. They were defeated then, but are in control now. The chief arguments advanced in Paris in support of the Italian claim on the Adriatic were strategic arguments; that is to say, military arguments, which had at their back the thought of naval supremacy in that sea. For my own part, I am as intolerant of imperialistic designs on the part of other nations as I am of such designs on the part of Germany.

The choice is between two ideals: on the one hand the ideal of democracy, which represents the rights of free peoples everywhere to govern themselves, and on the other hand the ideal of imperialism, which seeks to dominate by force and unjust power an ideal which is by no means dead in many quarters still. Every imperialistic influence in Europe was hostile to the embodiment of Article 10 in the covenant, and its defeat now would mark complete consummation of their efforts to nullify the treaty. I hold the doctrine of Article 10 to be the essence of Americanism. We cannot repudiate it or weaken it without repudiating our own principles.

The imperialist wants no League of Nations, but if, in response to the universal cry of the masses everywhere, there is to be one, he is interested in securing one suited to his own purposes, one that will permit him to continue the historic game of pawns and peoples—the juggling of provinces, the old balances of power, and the inevitable wars attendant upon these things.

The reservation proposed would

perpetuate the old order. Does any one really want to see the old game played again? Can any one really venture to take part in re-creating the old order? The enemies of a League of Nations have by every true instinct centered their efforts against Article 10, for it is undoubtedly the foundation of the whole structure. It is the bulwark and the only bulwark of the rising democracy of the world against the forces of imperialism and reaction.

Either we should enter the league fearlessly, accepting the responsibility and not fearing the role of leadership which we now enjoy, contributing our efforts to-

ward establishing a just and permanent peace, or we should retire as gracefully as possible from the great concert of powers by which the world was saved. For my part, I am not willing to trust to the counsel of diplomats the working out of any salvation of the world from things which it has suffered. I believe that when the full significance of this great question has been generally comprehended, obstacles will seem insignificant before the opportunity, a great and glorious opportunity to contribute our overwhelming moral and material force to the establishment of an international regime in which our own ideals of justice

and right may be made to prevail and the nations of the world be allowed a peaceful development under conditions of order and safety hitherto impossible.

I need not say that I have given a great deal of thought to the whole matter of reservations proposed in connection with the ratification of the treaty, and particularly that portion of the treaty which contains the covenant of the League of Nations, and I have been struck by the fact that practically every so-called reservation in effect a rather sweeping nullification of the terms of the treaty.

I hear of reservations and mild reservationists, but I cannot understand the difference between a nullifier and a mild nullifier. Our responsibility as a nation in this turning point is an overwhelming one, and if I had the opportunity I would beg everyone concerned to consider the matter in the light of what it is possible to accomplish for humanity rather than in the light of special national interests.

If I have been truly informed concerning the desire of some of your colleagues to know my views, I would be very glad if you should show this letter to them. Cordially and sincerely yours, WOODROW WILSON.

## Loan Exhibit of Earlier Age Is Announced

By EDNA H. KINARD

The West may be new, but it has its treasures. Because it was little less than three quarters of a century ago that the lure of gold started the caravans Pacificward from the older civilization of the new country did not mean that forever must be left on the shores of New England the significant riches which history had made precious. The ideals of the men and women who fought and wept through the wars which gave them independence and saved to them the little possessions which had come from across the waters or been fashioned from such crude affairs as were at hand they could bring with them the material things which they left behind in their adventures. Some right willed a more auspicious coming. The new country of the days of '76 and the era which built a new country soon be an to find their way to the shores of the Pacific. Mothers and grandmothers and great grandmothers hoarded and cherished the bits of handiwork, the silver, the massive old furniture, the laces and satins and brocades, the spinets, the spinning wheels, the dear, familiar things of everyday life, and sent them on their way to daughters and granddaughters and great granddaughters who had inherited to the west to seek their fortunes.

Who then, would find them so beloved as the Daughters of the American Revolution banded together to perpetuate the traditions of their forefathers who had fought and bled and gave a new code of government to the world? Who could find in its trinkets, the treasures of the women who gave them birth, a deeper reverence than the women who made up the Oakland Federation of Mothers' Clubs?

If it be so that lessons of patriotism may be learned through lifeless things then it were well to look occasionally upon the symbols of an elder age whose very warp and woof was patriotism.

A loan exhibit, then, is a logical and an interesting function which might very truly develop into a ceremony. It has been many years since such an undertaking was arranged by a local chapter of the Daughters of the American Revolution. History must go back to the time before the war to find its precedent. Oakland chapter, now, however, has sent forth a loan exhibit of treasures which whatever represents intimately of collectively the birth of the nation. Monday, March 22, is named the exhibition date with Mrs. David Gage throwing open her twenty-eight year old home for the unique display. A brief history will be written in the cards which mark each treasure. All

Daughters of the American Revolution will be invited to attend THEATRICAL PARTY TO ASSIST CHILDREN

Tonight lovers of the drama will gather in the Fulton Playhouse at a benefit theatrical party to share with Oakland Federation of Mothers' Clubs the task of providing shoes for children who are shoeless. Clothes for children who are clothesless, milk for those who are hungry and relief for those who want.

CHINESE SCHOLAR TO ADDRESS CLUB

Mr. Ng Poon Chew will be the guest of the Oakland Club tomorrow, offering to the women an explanation of the present situation in China from the angle of a Chinese scholar. Mrs. Alta Wilkerson will be heard in a group of musical numbers and Mrs. Alpha Dual will contribute a reading to the program. Assisting Mrs. Frederick D. Adams as chairman of the day in receiving will be Miss Theresa Leonard, Mrs. Vernon Gustafson, Mrs. E. R. Tuth, Mrs. F. H. Greene, Mrs. H. C. Petray, Mrs. H. R. Wharton, Mrs. T. Pius Miller, Mrs. E. T. Penton, Mrs. V. L. Conger, Mrs. H. A. Markkree, Mrs. T. Meyer, Mrs. George Bunch, Mrs. John G. Gage.

The following will represent the Oakland Club at the district convention, C. C. W. C. in Alameda next month. Delegates, Miss Alice Ruston, Mrs. John Ronald, Mrs. John Newton Porter, Mrs. B. C. Eddy, Mrs. Nellie Nelson, Mrs. B. Ellis Miller; Alternates, Mrs. A. B. Gaiser, Mrs. H. Hollingsworth, Mrs. F. R. Adams, Mrs. P. J. Kramer, Mrs. John Chestnut, Mrs. Olive Cole.

DR. DANIEL W. CROSBY WILL OUTLINE TOLK

"Health Centers in the East" will be offered for the consideration of the community service section of Ebbl on Friday morning at 10:30 o'clock by Dr. Daniel Crosby, who last year made a tour of the principal cities where this work is being carried forward. Those interested in the latest development in the scientific world are invited to attend the lecture without the formality of guest cards.

CLUBHOUSE FOR GIRLS THEME OF SPEAKERS

Lieutenant Commander Hudspeith of the Salvation Army Home in Beulah Heights, which is caring for more than a dozen long-children and their unmarried mothers, and Mrs. C. W. Johnson, county president of the W. C. T. U., whose ambition is a clubhouse offering housing for girls in West Oakland, will be the speakers at the Big Sisters' regular meeting tomorrow afternoon in the Webster street building of the Y. W. C. A. Community singing will be led by Miss G. Oldershaw. The public is invited.

## A Totally Unexpected but Glorious Millinery Sale

### Starts Wednesday and Lasts All Week

### It Happens Because of a Snow Storm

New York was recently tied up with the worst snow storm in years. Not a traffic wheel was turned on train, automobile or wagon. All express vehicles were commandeered by the city to remove the snow. Mails were impeded and no shipments could be made out of New York for a solid week.

Manufacturers were accumulating goods beyond their capacity to store—and they needed the money for them. Our millinery buyer was on the ground. He quickly took advantage of this unlooked-for situation to get latest style Spring Hats underpriced. He bought heavily and the values you will find in this sale are such as no one would have dreamed of getting at the beginning of a season.

## Latest Spring Hat Styles At Vastly Saving Prices

## Brewster County Deep Test Wells Have Good Showing

Wilson No. 1 Picks Up Fine  
Sand at 1,400 Feet, But Is  
Going on Down for Deep  
Sands, Other Tests.

Dallas, Tex., Feb. 27.—M. M. McFarland, a well-known politician and business man of Alpine, Brewster County, Texas, called at this office today and reports the oil situation in Brewster County looking brighter every day, as several of the deep test wells now drilling have had a fine showing of oil and one of them is liable to come in at any minute. In fact, they are looking for a gusher every day now, said Mr. McFarland. Wilson No. 1, in the south-central part of the county, found a fine oil sand at 1,400 feet and could have brought in a small producer, but they are after a gusher and are going on down to the deeper sands.

Shinner No. 1 has also had a fine showing of oil and gas at 1,000 feet, and is showing a high grade oil at 400 feet.

The Alexander Syndicate is ready to drill on the Yarrow ranch, about five miles north of Raymond, and is also preparing to drill on section 11, block 10, Gulf, Colorado & Santa Fe Railway.

The Burlington Wisconsin Syndicate has contracted to drill a well 15 miles south of Marathon. Another new well is contracted for about 50 miles south of Marathon on the Graham ranch.

Chicago capitalists have also contracted to drill on the Coombs ranch, 25 miles south of Marathon, approximately.

Several geologists are now in the county, working quietly for Denver and California interests, and several other deep test wells are to be drilled at an early date. Brewster County has the best geological formation in the Trans-Pecos region, and is also rich in other minerals, such as coal, zinc, lead, iron, silver and copper, and also the largest quicksilver mine in Texas and the third largest in the world. There is also a big demand now for ranch land and acreage in fee in our county and much acreage and several ranches have recently changed hands, and other sales pending. In fact, the entire Trans-Pecos section is rapidly coming into her own.

Mr. McFarland represented that district in the legislature for several years and is well known over Texas.

The rich mineral deposits and largest quicksilver mine in Texas referred to are all either within the boundaries or adjacent to our holdings. This territory is especially reported on by Dr. J. A. Udden, director of Bureau of Geology, State of Texas, after four months' research in Tampeexas district.

## Prices Skyrocket

Land values jumped from single to four figures overnight recently when the Callahan County well came in. Acreage all over where the discoveries of last week were recorded literally soared in price. It is next to impossible to get any desirable acreage in Brewster.

## Watch Brewster

The same thing will happen there—land owners will see their holdings jump many fold the very day—yes, the very hour—the first well comes roaring in and streaming over the derrick top.

## ANNEXATION OF SCHOOLS MOVE MADE

First official steps for the annexation of the elementary school districts of San Leandro, Piedmont and Emeryville to the Oakland High School district were taken last night at a meeting of the Oakland Board of Education.

Following an outline of the situation presented by Superintendent of Schools Fred M. Hunter, the board passed a resolution offered by Director J. B. Chandler, requesting the city attorney to take the necessary legal steps to bring about the annexation proceedings.

According to Superintendent Hunter the result will be the annexation of the three cities to the Board of Supervisors, which will call a hearing of the cases. In case a protest is lodged at that time, the three cities will be directed to provide separate taxation to support their students in the local high schools or to form separate high school districts and erect their own institutions.

Hunter declared that Oakland taxpayers have been forced to pay \$50 for every one of the 200 pupils sent to Oakland High schools from Piedmont, the same cost for a like number from San Leandro and a considerable number from Emeryville.

Under the new law it is necessary for the larger district considering annexation to provide affidavits showing that children from at least three families in the smaller district proposed to be annexed are attending the high schools of the larger district. These affidavits, according to Hunter's report to the board last night, are now being prepared by the high school principals and will be turned over to the city attorney for submission to the Board of Supervisors.

PIEDMONT, March 9.—The report of William C. Little, city clerk, on the question of building a high school in Piedmont will be submitted to the board of trustees at their regular meeting March 18. It was announced today when copies of the report were made public. Concluding a detailed statement of the costs of construction and operation of a high school, Little recommends that the city of Piedmont annex itself to Oakland for high school purposes with the statement that to do so would be cheaper than for Piedmont to construct its own high school.

JAPANESE REPORT DENIED.—WASHINGTON, March 9.—Shipping Board officials branded today as absurd reports that Japanese interests are seeking to buy a Seattle shipyard through American interests.

## Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon, apply it at night when you are alone and rub it gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You will find liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement

## Success Foreseen in W. C. T. U. Fund Drive

With all the churches yet to be heard from, sponsors for the ten-day campaign of the Women's Christian Temperance Union to raise \$20,000 in Oakland, Berkeley and San Francisco look forward to the final accounting tomorrow night with optimism.

A special appeal was made yesterday to Japanese and Chinese residents, who were told that Miss Catherine Klingling and Miss Frances Willard Wang will be sent by the W. C. T. U. to instruct Chinese schools in the different phases of the program.

SEVERAL SUITS STOLEN.—Cutting away the skylight on the roof of the tailor shop of Gus Cohen, 1229 Webster street, thieves early this morning dropped into the shop and looted it of several suits of clothes.

## H. C. L. Reindeer to Remain in Alaska

The 100,000 reindeer which the Governor of Alaska offered to Federal officials at Washington, as a means of reducing the high cost of living, will probably remain in the north. Statisticians have shown that reindeer meat could not be sold in the markets of the principal cities for less than beef. With a herd of 300,000 or 400,000 in Alaska, the Alaskan executive, to relieve the food situation, offered 100,000 reindeer to the Federal Government. The average weight dressed would be 125 pounds.

PRIVATE MOVIE GIVEN.—A preview showing of "The Confession," a moving picture drama whose story is based on the confessional of the Roman Catholic church, was given to 250 of the clergy, the faculty of St. Mary's College and the Sisters of the Convent of the Holy Names at the convent last night.

## Mothers' Clubs Will Hold Theater Party

The Oakland Federation of Mothers' Clubs is to hold a theater party tonight at the Fulton Playhouse. Committees have been working on the affair for many weeks, and everything connected with the function is in charge of a committee. Mrs. J. Neilson is general chairman and has control of funds. Mrs. J. N. Allen is chairman of the committee on a special program between acts of the play, and Mrs. O. P. Cole is in charge of the sale of candy. Under Mrs. Cole's direction a boy of pretty high school girls will act as vendors of sweets.

## Fourteen Drowned When Vessel Sinks

STOCKHOLM, March 8.—Fourteen persons were drowned in the sinking of the Swedish steamer Argo in the Baltic Sea.

## Community Service Will Meet Wednesday

A meeting of the Community Council of Federated Community Service will be held Wednesday evening at 8 o'clock in the West Room of the Hotel Oakland. Jesse Robinson is chairman of Community Service and Jay B. Wash director of the Recreation Department of the city secretary. The program of future activities of Community Service will be discussed.

SHOTS ARE MYSTERY.—The police are puzzled to account for a mysterious shooting which occurred this morning at the foot of Wood street. Residents in the vicinity, aroused by the shots, notified the police station and the shooting squad was sent to the scene, but the person who fired the shots could not be found.

OF FRANK L. STANTON

### Just A Happy Sinner.

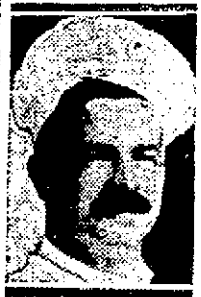

He's just a happy sinner—  
Happy all the time,  
Whistlin' for a dinner,  
An' dancin' for a dime.  
Never see him worried  
As the wall street fellows seem,  
Isn't half as hurried  
As a seaward-bound stream.

World where he's a-livin'  
Is all the joy he knows.  
Providence, forgivin'—  
On his merry way he goes.

### Fresh Mushroom

Take eight small mushrooms very hard and peel. Put them in a saucepan with a small piece of butter and a quarter of a glass of white wine. Cook them very quick with the butter on. When ready take the mushrooms out of the pan and make the cream as follows: Reduce the white wine and add two spoonfuls of cream sauce, not too thick; put some chopped fat and chives, season with salt and pepper. Drop the mushrooms in the sauce and finish the whole with a good piece of butter.

## MY HEART AND MY HUSBAND

by ADELE GARRISON

(Continued from Yesterday.)

It is not in Dicky's nature to receive a challenge of any sort without in his turn flinging down a gauntlet. I saw his eyes light up with mischievous interest at Bess Dean's audacious words. As she finished he swept her an elaborate bow.

There is, let us hope, a public library building in Bayview," he said insinuatingly.

"Unfortunately, no," Miss Dean retorted, unabashed, "but we might build one."

She offered him a mocking salute and tripped away. I saw her reason in the next second. Miss Holcombe and Mr. Stockbridge were advancing toward us. It was no part of her scheme to be unduly obtrusive. She wished simply to leave upon Dicky's mind the impression of a pretty, sparkling, flirtatious and daring girl. That she had succeeded I saw in the amused interested glance he sent after her.

To my amazement I found myself trembling with rage at Bess Dean. I could not believe that I had fallen to the level of Mrs. Stockbridge, was ready to be violently jealous of a good-looking woman who spoke twice to my husband. Then I realized that it was not her rather crude jest concerning the kiss Dicky had given me, not even her pronounced pushing of herself into Dicky's notice that had angered me, but the fact she had disturbed a golden moment, one of the rare ones that sometimes comes to a man and wife who love each other. There was understanding, forgiveness and a plea for pardon in my husband's kiss. I felt defrauded that its memory should be spoiled by Bess Dean's flamboyant gibe concerning it.

"AND NOW—"

With the departure of the pupils had vanished the school master attitude of Mr. Stockbridge, neither was there any trace of the brusque manner which he invariably used to the teachers. It was a most courtly man of the world who came up to us, with just enough boyish excitement in his manner to reveal how much this unusual social experiment meant in his married and circumscribed life.

"And now, if you are ready," he said deferentially, "I will run you down to the house. Mrs. Stockbridge so regretted that she could not be here this afternoon, but some foolish details concerning the dinner not going exactly to suit her, she felt that she must stay at home to attend to them. You, perhaps, know what hostesses are," he smiled at Dicky.

"Do I?" Dicky grinned broadly. "When we're giving a dinner I hide under the bed until Mrs. Graham gives the word for me to come out and get into my moonlight."

Mr. Stockbridge laughed heartily and boyishly.

"I don't believe we'll have to do that," he said, "but I think we'd better start for she will be wondering what has become of us. You're going to dress at our house, aren't you, Alice?"

"Yes," she replied. "Milly thought I planned to have my home so that Mrs. Graham would not be alone in dressing."

Her tone expressed warm appreciation of her hostess and I saw Mr. Stockbridge's thin face flush with gratitude. The old feeling of pity for both him and the woman next came over me. How stanchly they were playing the game of honor and truth in protection of a pitiable creature not worthy to tie the shoestrings of either of them!

Seated in the tonneau of Mr. Stockbridge's car a few minutes later, with Dicky and the principal engrossed in conversation in the front seat, Alice Holcombe glanced inquiringly at the black brocade "opera bag" I carried.

"I know the new styles are—" she drawled mischievously, "but, surely, you have not your entire evening costume in that bag."

"Indeed, no," I returned laughing. "Mrs. Stockbridge was kind enough to send me word that she would hang up my gown and cloak to prevent their crushing, so I put them in a dress case this morning and sent them over to her home by a boy."

"What?" she sat up in her seat as if she had been suddenly electrified. But her exclamation though intense, was guardedly low. "Say that again."

I repeated my statement, wondering at her agitation, and allowing a feeling of uneasiness to creep over me.

"Well!" she relaxed into her former pose. "We'll make it our business to examine those things

thoroughly the minute we get there." "Why, you don't think—" I stammered. "No, I don't think, I pretty nearly know," she retorted. "But luckily, being forewarned, we'll get our forearms in working order."

## How Often do You get Really Refreshing Sleep

ONCE in a while perhaps you get up feeling like a new man.

But it doesn't happen often—unless you are the exception, or have been very lucky in your choice of a bed.

Beds are made to sleep in—yet the chances are that your bed (whether wood or the ordinary metal bed) creaks slightly here, is a little unsteady there. Not much perhaps, but quite enough to disturb that complete relaxation you must have for perfect repose.

It is wonderful how the right kind of Bed Spring invites perfect relaxation and deep, sound sleep.

The good spring is taut and flat, yet resilient. It supports the body at ease in any sleeping position—conforms to the contours—never weakens, lumps or sags.

Look at the Springs built by Simmons Company—Springs built for sleep!

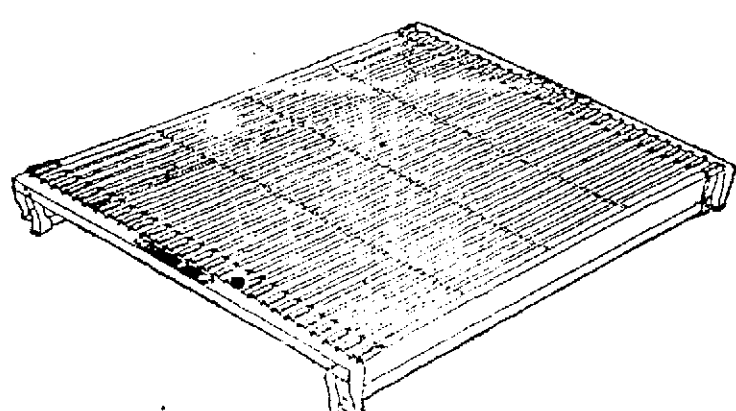

For forty years Simmons Company has been making Beds and Springs to promote sleep.

It is the maker of really noiseless Metal Beds—beds that stand sturdy and firm—not a shake, creak or rattle anywhere.

If you know only wooden beds or ordinary metal beds and springs—ask the leading dealer in your section about Simmons Steel Beds, Brass Beds, Springs, Day Beds and Children's Cribs.

They are built for sleep—yet they cost little if any more than the casual merchandise of the ordinary store.

And when you are selecting your Simmons Beds with an eye to their appearance in the room, you will see that Simmons has for the first time established beautiful and authoritative design in Metal Beds.

The Simmons "SLUMBER KING" SPRING

Flexible steel slat fabric spring. Unique non-sag design that conforms scientifically to the weight of the body. Mattress bottom consists of flexible steel slats connected to each other by three rows of helical springs, forming a perfectly flat surface strongly supported by heavy helical springs at ends. Supplied in all standard widths for all types of beds. Supplied in "Parchment" finish—rust-proof qualities.

Sleep is a big subject! Write us for the brochure, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of charge.

### Allied Flyers' Club Choose Durant Field

Durant Field at Eighty-second avenue and East Fourteenth street has been chosen by the field committee of the Allied Flyers' Club as future headquarters. Durant offered the organization use of his field and planes until the lease on the property expired.

Fifteen fields in the Eastbay were investigated. Committee reported that the Alameda march could be made into an excellent flying field, and went on record endorsing a municipal flying field.

### BOY GIVEN \$2 FOR \$1,200,000 BROKER'S SLIP

NEW YORK, March 9.—A certificate on the Bank of Montreal entitling the bearer \$1,200,000 in railroad bonds was picked up in the street in the financial district yesterday by Harry Hahn, a 17-year-old clerk. Noting the broker's firm's signature on the order, the youth delivered the paper at its office. A reward of \$2 was given to him with the advice that he "was an honest lad and probably would make his way in the world."

### Pope Benedict Asks For Sanctifications

ROME, March 9.—Pope Benedict held a secret consistory to ask the consent of the cardinals for several sanctifications, including that of Joan of Arc. His holiness also announced appointment of several new bishops and delivered an allocution.

### DANIELS URGES BAY NAVAL BASE

The appearance of Secretary Daniels at the hearing on the naval appropriation bill and his urging of the San Francisco bay site for a Pacific Coast naval base is in accordance with a promise made by the Secretary of the Navy to the delegation which recently visited Washington from the bay cities, according to Joseph E. Caine, managing director of the Oakland Chamber of Commerce.

Caine says that Daniels' move may be taken as the beginning of the fight to locate the naval base on the bay. Daniels yesterday recommended an initial appropriation of \$10,000,000 and has pledged to use every effort to carry through his program, which will mean the expenditure of at least \$40,000,000.

### KING REVIVES SIDE-CREASES FOR TROUSERS

LONDON, March 9.—King George's latest photographs show that he has revived a fashion set long ago by his father, King Edward. His trousers are creased at the side down the center. This style of crease never attained great popularity except among a few elderly courtiers, and tailors now say that in their opinion the most men will stick to the front crease.

### U. S. Forestry Chief Quits; Inadequate Pay

WASHINGTON, March 9.—Henry S. Graves, head of the federal forestry service, has resigned. Graves was at the head of the lumber operations conducted by the American Expeditionary Forces in France.

The poor pay of scientific men in the government service was given by Graves as the necessity compelling him to leave the position of chief forester. His letter announcing his intention to "tender" later his formal resignation was read yesterday by Secretary Meredith to the Senate agriculture committee in support of his contention that the government would have to offer greater inducements if it wished to attract and retain high class men.

### Shipping at Hamburg Is Reviving Rapidly

WASHINGTON, March 9.—Revival of activity at the port of Hamburg was reported in official advices today to the bureau of Foreign and Domestic Commerce. Thirty-seven shipping services have been definitely re-established and initial sailings made. Of these four are to the Atlantic and one to the Pacific Coast of the United States; the Great Britain, seven; France, one; Holland, four; Belgium two; Cuba and West Indies three, Mexico and Central America two; South America eight, most men and Asia four.

### BOYS TO PREVENT FIRES

Piedmont youths attended the regular meeting of the junior fire prevention bureau in the city hall Saturday night under the direction of Fire Chief W. H. Oliver. Stereopticon slides, showing common causes of fire, were explained by the chief.

### SHORTBRIDGE WILL AID IRISH BONDS

Plans for a big celebration and completion of the Irish bond drive on St. Patrick's day and on the following day at the Auditorium opera house have been outlined, with the assurance that Samuel Shortbridge will be the speaker of the evening and that the program of songs, instrumental music and dancing will attract a large gathering.

Reports of the committeemen of the American League for Irish Independence made at a meeting in Berkeley last night, indicate a large number of sales of \$100 bonds. Many new workers have been named by Rev. T. Moynihan of the Church of Corpus Christi.

PARIS, March 9.—(French wireless service)—Sowing of the devastated areas of France has been expedited by deliveries from Germany of oats and barley, according to orders of the Reparation Commission. The Minister of Liberated Regions reports that this seed is of excellent quality.

Drowning was formerly a method of capital punishment in Europe.

## William Kent Urges Free Thought in U. S.

STANFORD UNIVERSITY, March 8.—Free thinking and discussion will stave off the chaos of revolution or the hopelessness of a peonage system, William Kent, former congressman, said today, addressing the students of Stanford gathered to celebrate Founders Day. Kent discussed industrial problems of the hour.

"He said syndicalism seems to me absurdly crude, economically impossible and subject to the same sort of logic as Lincoln applied to the doctrine of secession."

Kent, a Republican, is a candidate for United States senator.

## Chrichton-Yule Heirs Sued by Contractor

Numerous heirs of the estates of James Chrichton and John Yule are defendants in a suit to collect \$588,776 with interest of \$129,221, alleged due for alterations in the Albany building completed in January, 1914, before Judge A. F. St. Sure, today. The plaintiff is A. T. Spence, the contractor who did the work. The defendants are contesting the suit on the ground that Stocker and Holland, lessees of the building at that time, should assume the debt. Stocker and Holland claim the debt was assumed by the present defendants, who later became lessees of the building.

## FIREARMS ORDINANCE ADVANCED

The new firearms ordinance making more difficult the purchase of firearms in the city was passed to print this morning by the city council, and arrangements made to finally to request other cities about the law to adopt a similar ordinance as a matter of equality.

The ordinance prescribes that persons purchasing firearms in the city must first secure a permit from the chief of police, the permits being good for a period of one year and being granted after an investigation by the chief of the character of the applicant and his reasons for wishing to carry or purchase firearms.

The measure, which carries with it a penalty of fine or imprisonment, or both, for violation, does not act against transactions between firearms dealers, and contains a clause exempting officers of the law of all sorts.

Objection to the passage of the measure at this time, because of the fact that the law might work injustice upon dealers, unless similar measures are adopted in neighboring cities, was voiced by Commissioner of Streets W. J. Bacus, who asked for a continuance of the decision.

Commissioner Bacus withdrew his protest, however, when it was pointed out that other cities about the bay are already considering a similar ordinance, and when it was promised bringing the necessity of the measure before the city officials of the other municipalities.

## Man Being Tried on Bad Check Charge

The trial of Judson Byers, charged with issuing a check while having no funds to meet it, began before Superior Judge T. W. Harris today. Byers is accused of passing the check for \$18.50, last December on the firm of Ballard & Anderson, Broadway merchants. This morning was devoted to getting a jury. Deputy District Attorney Frank Shay is conducting the prosecution, while Senator Frank Carr is appearing for the defendant.

## Mayor Delegated on Convention in South

Mayor Davis was today delegated by the City Council to handle the proposed participation by Oakland in the convention of the League of the Southwestern in Los Angeles, April 1, 2 and 3. Mayor Davis will enlist the cooperation and interest of civic and commercial organizations in the gathering.

Protest against the plan to close East Eleventh street between twenty-eighth and twenty-ninth avenues, which was requested by H. C. Prince Company, was presented to the council today by property owners and residents.

The council granted permission to the Burdette Oxygen Company to install a steam boiler at 1135 Third street.

## Washington Township Forms Branch of Health Center

A Washington Township branch of the Alameda County Health Center was formed last night at a meeting in the Washington Township Country Club in Contra Costa attended by prominent citizens of the district and members of the school boards of the various school districts of the township.

Following addresses by Dr. Daniel Crosby, and Attorney Peter J. Crosby, outlining the need for the move, the organization of the branch was effected and a complete staff of officers and members chosen.

The officers are: F. V. Jones, of Niles, chairman; and Frank P. Dusterberry, representing the Contra Costa grammar school, secretary; treasurer, an executive committee was elected from among the officers of the school districts represented, including Jones, Dusterberry, Dr. C. J. McKown of Niles, Haley Durham of Irvington, Henry May of Decoto, J. M. Scribner of Alvarado, Louis Roushkin of Newark, Miss Mary Brown of the Lincoln school district, and F. T. Hawes of the Union high school district.

## INCOME TAX DUE WITHIN SIX DAYS

Every hour of the day more than fifty persons enter and leave the office of the county tax collector for Oakland, on the second floor of the post office building. Some enter to file income tax reports and pay their income tax, while others merely ask questions. One clerk does nothing but hand out blanks and answer questions. Others receive reports and collect taxes.

Every single person who has an annual income of more than \$1000 will visit the office before March 15. Those who fail to make reports prior to that date will become delinquents, and will be subject to a fine of 25 per cent of their total income tax. The office is open from 8 o'clock in the morning until 8 o'clock at night, and on Saturdays, until 5 p. m. About 10,000 persons have filed income tax reports to date. Only six days remain of the campaign, during which time it is expected that 20,000 persons will file income tax reports. After that date, a canvass of the records will be made and a round-up of delinquents will follow.

## Man Being Tried on Bad Check Charge

"How do I make this out?" is a question which is answered several hundred times each day. "Here it is, all figured up. Now how do I fill this thing out?" the "thing" referred to being the tax income blank.

Reports are filed daily showing that Oakland has several hundred breadwinners whose incomes run better than \$10,000 annually. One woman, a widow, filed her report showing that her income is \$1000.05. Another woman came in to the office with a badly soiled and torn bill. "This is part of my income," she explained. "The baby is just cutting its teeth and she chewed it up. Do I have to pay tax on that?"

## Mayor Delegated on Convention in South

One man's income tax report showed that he had an annual income of \$1700. Out of that amount he had paid \$305 luxury tax. The clerks in the local office are now wondering what he lived on, as \$306 luxury tax would call for an expenditure far in excess of his income.

Tomorrow a postal money order window will be opened in conjunction with the tax campaign, to enable those who file income tax reports to pay the tax at the same time. Income tax can not be paid in cash. Checks or money orders made out to Collector Justus Wardell are accepted.

## Kennedy Mine Fire Out; Work Resumed

## Elevator Kills War Hero, Twice Wounded, Gassed

SAN FRANCISCO, March 9.—Herbert Hastings, 25 years old, wounded twice while in service in France, was crushed to death today between a freight elevator and the elevator shaft in a building at 1337 Mission street. It took firemen more than 45 minutes to chop the body out. Hastings had been working as a machinist's helper and planned to join his wife and two children in Minneapolis next week. He was discharged from service after having been shot twice, gassed and bayoneted.

## Alameda Shipworker Beaten Up by Thugs

Attacked by a gang of thugs who trailed him from his home this morning, Lloyd Winor, 1100 Broadway, Alameda, a shipyard worker, was severely beaten in a vacant lot at Twenty-third avenue and Canal street, and left in a dazed condition by his assailants, who escaped. Winor reported the assault to Patrolman A. H. Gladding and a search was made for the slugging band. The shipyard worker was able to give a partial description of several of his assailants, although he was not sure how many had attacked him.

## PETERSEN IS QUIZZED ON BOMB NOTE

A severe cross-examination of Captain of Detectives Walter J. Petersen by Attorney T. L. Christianson in an attempt to shake his testimony that John G. Wieler, charged with criminal syndicalism, had written on an envelope in his presence the name and address of his cousin, Walter J. Petersen, 2122 Fifth avenue, which corresponded with the envelope of the original bomb note received by them, consumed the greater part of this morning's session of the trial.

Captain Petersen was called to the stand after his cousin and wife had testified to receiving the bomb threat. The trial was delayed in starting when Petersen of Fruitvale

## NEW DESIGN OF SUBMARINES ON LONG TEST TRIP

SAN DIEGO, March 8.—The U. S. S. Deaver, which is now a submarine tender, is here today with a number of the new R and S types of submarines on the first leg of what is reported, was to be a trip around the world. The Deaver left San Pedro last night with the undersea boats.

The squadron will proceed to the Atlantic through the Panama canal, thence to European waters and then on to the Philippines via the Mediterranean.

and his wife refused to come to court in the case of an automobile accident suit for them.

Testimony by handwriting experts to prove that Wieler's handwriting was the same as that of the bomb notes written to Petersen and Mrs. Hilda H. Gerstle of San Francisco consumed most of the afternoon. The experts called by the prosecution are Carl Ehrenschmel, E. O. Heinrich and Milton Carlson. The defense will endeavor to disprove their testimony by placing on the stand Chauncey McGovern, another handwriting expert of San Francisco.

"He won't be happy till he gets it!" So remarked his cameraman, when, for purposes of photography, Will Rogers' director made him give up his chewing gum for an hour. And he was right—for they had to give Rogers his gum back before the big scene in "Water, Water Everywhere" could be filmed.

Will Rogers' gum was in constant chewing gum gave him ideas, he says. He can't think without a wad. He can't work without ditto.

"And I guess there are worse habits," he averred. "I know here, who knew him in his vaudeville days, remember his gum habit above all else; 'Tubito,' he chewed two hundred packages; in his present play they lost count. ## DOCTOR ADVISED CHANGE OF CLIMATE

Run Down and Lungs Hurt—  
Stayed Home and Gained  
22 Pounds

"In November, 1911, I had a severe cold and a gripe, which left me with a bad cough. My lungs and shoulder blades hurt so I couldn't sleep and finally had to give up my job and was ordered to change climate. In April, 1912, I began taking Milks Emulsion. On the second bottle I could see a change. My appetite was better and I commenced to gain strength and weight. Now (August 23, 1912) I have used 23 bottles, have increased 22 pounds in weight and believe I am permanently cured."—W. F. Bourland, Route 5, Wolf City, Tex.

Mr. Bourland was fortunate in commencing to use Milks Emulsion when he did. A run-down system invites disease. Milks Emulsion costs nothing to try.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee: "Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Advertisement.

## MOTHERS, DO THIS—

When the Children Cough,  
Rub Musterole on Throats  
and Chests

No telling how soon the symptoms may develop into croup, or worse. And then when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister.

As first aid and a certain remedy, Musterole is excellent. The thousands of mothers know it. You should keep a jar in the house, ready for instant use.

It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frost-bites and colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size \$2.50.

## A Shampoo Worth Trying

It is not necessary to shampoo your hair so frequently if it is entirely and properly cleansed each time by the use of a really good shampoo. The easiest to use, the quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little cost. It is dissolving a teaspoonful of canthrox, which can be obtained from any druggist's in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just to the top of the head. This, when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the suds, the hair is left soft and supple, and you will find the scalp is fresh, clear and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and soft fluffiness that makes it seem very heavy.—Advertisement.

(Boudoir Secrets)

Here is a simple, yet very effective method for removing hair and fuzz from the face, neck and arms. Get the objectionable hairs with a paste made by mixing some water with a little powdered delatone. Leave this on for 2 or 3 minutes, then rub off, wash the skin and the hairs have vanished. No pain or inconvenience attends this treatment but results will be certain if you are sure to get real delatone.—Advertisement.

## SWOLLEN JOINTS GAVE GREAT PAIN

The chief symptom of rheumatism is pain. The treatment is most successful that most quickly relieves and banishes this most disagreeable symptom. Many rheumatic people suffer pains that could be avoided by building up the blood. When rheumatism is associated with thin blood it cannot be corrected until the blood is built up.

Mr. C. E. Starnes, who lives at No. 1021 Bannock street, Denver, Col., suffered from rheumatism for years but he was more fortunate than a great many victims of the disease, for he found a remedy that so built up his entire system that he is now free from rheumatism. When seen recently at his home Mr. Starnes said:

"The pains of rheumatism were so great I had begun to think I should never get a full night's sleep. My joints, wrists, elbows, shoulders, hips and knees were swollen and discolored and were stiff and sore. After resting for a while I would be so stiff I couldn't walk. Sometimes the pains were sharp and shooting. My muscles were numb and the tips of my fingers became very weak and lost all ambition."

"I had heard of Dr. Williams' Pink Pills for several years and when a medicine failed to help me I decided to try them. A few days after I had begun to take the pills I experienced so much relief that I was able to sleep well and strength was slowly returning. The pain was less severe until I was free from the signs of rheumatism. The swelling and stiffness are gone and I feel like a different person."

"I strongly urge those who are suffering from rheumatism to try Dr. Williams' Pink Pills."

Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, by the Dr. Williams Medicine Co., Schenectady, N. Y. If you are interested write today for the free book, "Building Up the Blood," containing a special chapter on rheumatism.—Advertisement.

## A Skin Tightener to Reduce Wrinkles

In beauty culture, as in the treatment of physical ailments, the tendency nowadays is to seek the removal of causes rather than the symptoms or effects. In the matter of wrinkles, for instance, we know that the lines are caused by the skin becoming loose in places, so it does not perfectly fit the flesh beneath. The skin then "wrinkles" or sags. Naturally the proper thing to do is to tighten the skin—make it fit—then there's no more wrinkles, wrinkles and folds, and no surplus skin to sag or bag.

The best-known formula for the purpose is: Saxonite, one ounce, dissolved in one-half pint of witch-hazel, the oil of a wash lotion. The effect is truly remarkable, especially as results are almost immediate. Ask the druggist for the powdered saxonite, which dissolves very quickly.—Advertisement.

## Ends Stubborn Coughs in a Hurry

For best effectiveness, this old home-made remedy has no equal.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will see that the immediate relief given is almost like magic. It is very easily prepared, and really there is nothing better for coughs.

Mix a pint of water with 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take-hold instantly, soothing and healing the membrane all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear altogether. A Jar's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

## BAY CITIES GAIN SHOWN BY TRAFFIC

Close to three million more persons crossed the bay back and forth from Oakland to San Francisco last year than in 1918 and over eight and a half millions more made the journey than did in 1912.

These and other figures which indicate the gain in population of the bay cities are included in a report compiled under the direction of John R. Euler, supervising inspector of steam vessels.

The figures show that in 1919, there crossed the bay, between the Oakland and San Francisco sides, 41,861 persons and that these were all taken over the Southern Pacific and Key Route ferries. In 1918 the figures were 39,165,610. In 1912, when the Western Pacific and Santa Fe ferries were also in operation, the number was 33,399,113. The gain of 1919 over 1918 was 2,795,750, and over 1912 it was 8,562,247.

A table that indicates the growth of the automobile industry, that the Creek Route Ferry which carried 2,353,501 in 1919 and 1,963,142 in 1918, a gain of 355,359 for the year.

Other figures in the report bring out some startling facts. The Northwestern Pacific is shown to have passed the six million mark for the first time and to have gained 690,816 in the year. The Monticello line to Vallejo has lost 29,514 over 1918 and gained 426,357 over 1912. Local travel on the Southern Pacific ferry from Port Costa to Benicia has dropped by gradual stages 9161 in the seven years. A tremendous gain on the Vallejo-Vallejo Junction ferry of the Southern Pacific is explained that an additional ferry was put on to the navy yard. Last year 1,258,101 passengers were carried against 552,860 for 1918. The Martinez and Benicia Ferry has jumped steadily with the years, carrying 315,570 in 1919 against 286,574 in 1918, and 24,032 in 1913.

The same is true of the Richmond and San Rafael boats which carried 206,748 in 1919 against 133,075 in 1918 and 51,209 in 1913. The Redondo-Vallejo ferry, which began to operate July 4, 1913, carried for the remainder of that year 93,492 passengers and 293,285 in 1919.

The Western Pacific and Santa Fe ferries which were taken off during the government's administration of the railroads, have been put back. The statistics show that this traffic all went over the Southern Pacific ferries. The Key Route, which lost some business as a result of the Santa Fe change in routing, gained in 1919 over 1918, just 5341 passengers and over 1912, made a gain of 842,138. Its total in 1919 was 14,919,001.

## Husband Slashed Her With Razor, Wife Says

Promising to mend his ways in order to effect a reconciliation after his wife had sued him for divorce on the grounds of cruelty, Joseph Almeida took possession of \$600 she had and then told her he had only become reconciled so as to get the money, says Mrs. Georgina Almeida, in her second divorce suit on file today. Since then he has added to his course of cruelty, consisting of beatings and calling her names, by attacking her with a razor and making a long cut on her wrist, she avers. Mrs. Almeida asks for \$50 a month alimony and says they were married in Oakland on September 8, last.

## Sailor Boys Quartet Face Burglary Charge

David Seng, alias Walter Smith, alias John Curtis, 19 years old, occupies a cell at the Berkeley jail, while in detention at Goat Island are John W. Garrett, 21, of Douglas, Ariz.; William T. Eisenman, 13, Truismen, Pa.; and Carroll E. Allison, 17, El Paso, Texas.

Jobs of window smashing and robbery confessed to by the quartet of men in uniform are those at Diehl's hair and jewelry shop, Fourteenth street, Oakland, and the shops of H. Abona, Shattuck avenue and Addison street, and Charles J. Branstetter, 2008 Shattuck avenue. Jewelry totaling a value of almost \$1000 was secured from the three places.

Seng was held on \$3000 bail by Judge Edgar in Berkeley. He was caught by Harry Hall, "super-cop" in Berkeley.

## Members Walk Out During Stormy School Board Session

The abrupt departure of two directors from the board rooms, and charges hurled back and forth of politics and steam roller tactics were the features of a stormy session of the Board of Education last night at the opening of the regular weekly business session of the board.

As a result of the clash the board proceeded to the business of the evening minus two directors, Dr. J. Loran Pease and E. A. Young, and with the affairs of the body in a chaotic state caused by the announcement of President Floyd Gray that the special meeting of the board last Thursday night was illegal.

At the meeting referred to the board conducted a hearing of charges against the three department foremen, and reached a decision finding the foremen guilty of no wrong doing in accepting payment for vacation periods while hired on a per diem basis. Under Gray's ruling no legal meeting was held and the entire matter must be opened up again.

MINUTES OBJECTED TO.

Dissension developed with the presentation for approval of the minutes of the special meeting and two prior regular meetings, when President Gray asked that approval be given the minutes of the regular meetings and withheld from the special minutes on the ground that the special meeting was not regularly adjourned, but broke up in disorder with unfinished business before it. The minute book showed the meeting regularly adjourned by Dr. Pease, who took the gavel when President Gray left the chair and the meeting in the midst of a discussion.

Conversation between Gray and Pease waxed warm over the question of the status of the special meeting, from which Gray had left in a hurry and the subsequent status of the meeting last night. Pease moved an appeal from Gray's decision, it was seconded by E. A. Young and carried. Pease then moved adjournment but this failed to carry. Mrs. Daisy Short, who was absent from the special meeting, then stated that in her opinion ulterior motives prompted the controversy and that politics were involved.

PAY THREATENED.

At this point in the clash Young took his hat and coat and left without a word, Dr. Pease leaving shortly afterwards.

After the two directors left President Gray directed Secretary Lloyd D. Barzee to obtain an opinion from the district attorney as to whether or not a director could collect his salary for a meeting after walking out. The discussion came to an end at this point and the other members settled down to the business of the meeting.

MUSICAL SKIT BY CLUB.

## ...and at the Hippodrome

A fact:

At the New York Hippodrome, drawing over three million theatre-goers annually from every corner of the country, Fatima is not merely the largest-selling cigarette—it actually outsells any other by more than two to one.

*Ligarette de la Reine*

## FATIMA

A Sensible Cigarette

## "Just Enough Turkish"

A Hippodrome audience may truly be called "representative" of the whole United States—so this day-after-day preference for Fatima is highly significant.

For one thing, it shows the broad sweep of Fatima's popularity.

But—more important—it indicates that men generally are growing more sensitive to the taste-effect of too much or too little Turkish tobacco in their cigarettes.

Fatima's "just enough Turkish" blend, in other words, is the one feature which sets it definitely apart from all other cigarettes—and which accounts for its leadership at so many famous places.

## Mayor of Emeryville Admits Gambling, But Says Town Not So Bad

Cliques of gamblers falling out and waging battles among themselves are the cause of "sudden death" that end in so-called "red light" districts, Mayor W. H. Christie of Emeryville in a statement in which he tacitly admits that gambling is going on in his city, but demands to know, "why pick on Emeryville?"

"Emeryville is no worse morally than any of her neighbors," he declares. "To my knowledge there has never been a house of ill-fame or so-called red light district in Emeryville."

Christie's statement follows: "I have read, at first with mild surprise, and later with growing amazement, the series of articles which have appeared in The TRIBUNE for the past several days, dealing with alleged vice conditions existing in Emeryville, and particularly that portion of the story which has to do with the making of bets on horse racing and the difficulties encountered by the eager bettor in his endeavor to place a wager."

Before commenting further on this subject, I wish to state that there is no desire on my part to minimize or condone the viola-

tions of the law referred to, and to state further that the conditions complained of do not exist in Emeryville at any time, nor did they at any time thrive or exist with the consent or through the connivance of the officials of this town.

Even a casual reading of the continued story about bucket shops and betting on horse racing develops the fact that the object was attained only by the most strenuous efforts on the part of the bettor, which entailed skulking through endless rooms, byways and closely guarded doors before the desired goal was reached.

### WHY EMERYVILLE?

What I can't understand, and in this I am joined by many of our most substantial citizens, is the why and wherefore of the attack on Emeryville. Why must the name of Emeryville be blazoned across the full width of a page of valuable space and a front page at that, in connection with a story of this character, which, to say the least, hardly justifies the prominence given it.

Why, as Marshal Carey queries, and many of the town people echo, pick on Emeryville, or in other

words, why make Emeryville the goat?

This is a particularly pertinent inquiry, taking into consideration that the final paragraph of the final chapter published in the issue of Saturday night, casually mentions the fact that the same conditions obtain in the more important and larger surrounding communities, giving the names of some of them in just ordinary plain common type.

I have no desire to defend the good name of Emeryville at the expense of any one of its neighbors, nor to justify violations of the law in this community by citing the fact that (so I am reliably informed) bets can be placed on horse racing at out-of-town tracks and that it is not necessary to traverse subterranean passageways, climb over the tops of buildings or pass frozen-faced door guards to do so.

Yet, this is wandering from the subject or rather deviating from the purpose of this letter.

### OTHER TOWNS NEED CLEANING

The idea I wish to convey and to force home until it becomes indelibly impressed upon the mind of all interested readers, is the fact that Emeryville, if no better, is decidedly no worse morally than any of its neighbors.

We, the town officials and the best element amongst the citizens of the town, are striving earnestly and honestly, and with considerable success, to make of Emeryville a great industrial center and at the same time to make it a clean, decent community in which to live and where the children of the workers and other inhabitants may grow to maturity, in an atmosphere beneficial to them in every way.

We are not concerned in the battles that wage between cliques of gamblers, which, ordinarily are the cause of these sudden outbreaks that end in so-called "red light" districts, but we are very much concerned in defending the good name of our town against uncalculated attacks, and particularly when such attacks are in whole or in part initiated from within.

Right here is the proper place and time for me to state emphatically that there has never to my knowledge, been a house of ill-fame, or a so-called red light district, in Emeryville, in spite of the ridiculous statements to the contrary, coming from the Dan Dan Carly's, Mike Hayes' and others possessing similar narrow-gauge or one-track minds.

All the people of Emeryville ask for is a square deal. We will join with the Oakland TRIBUNE and all of the other volunteer or regular forces at its command, in any attempt at house-cleaning, be it local or county-wide in scope.

While the fact is admitted that Emeryville is one of the best governed towns in the state, modesty forbids my saying more, it is only about two and one-half (2½) square miles in area and therefore only a small part of Alameda and San Francisco counties. I could go in indefinitely in reference to a small internal disturbance that has arisen in Emeryville over a differ-

OLA HUMPHREY, who has fallen heir to estate valued at \$4,000,000.

OLA HUMPHREY TO GET FOUR MILLION

Ola Humphrey, Oakland girl, who gained fame and a title when she married Prince Hassan of Egypt, has fallen heir to \$4,000,000.

News of the death of the husband, whom she was about to sue for divorce, came to Princess Hassan at Los Angeles where she was living near the motion picture colony and shortly after the word that under the French law she is to receive one-half of the fortune.

The \$8,000,000 estate of the prince is being settled. In the half that will fall to the Oakland woman is a home at Versailles which was used as a hospital during the war. Mrs. Humphrey was a motion picture actress filming an Egyptian scene when she met Prince Hassan five years ago. The wedding proved unhappy and they soon separated.

### Hearing Started in O'Neil Salary Case

Hearing of the application for a writ of mandate to compel City Auditor Harry G. Williams to pay the salary warrant of Police Corporal Thomas F. O'Neil, who was indicted in connection with the lottery graft scandal, for the time of his suspension was begun by Judge E. J. Brown today.

O'Neil asks for \$584.71. His appeal from his suspension by Chief of Police Lynch was sustained by the Civil Service Board and his salary ordered paid by the city council.

ence of opinion that exists between a few property owners and the administration as to the merits or demerits of certain street improvements, necessitates, but doubt if it would be of interest to you or your readers. It might, however, interest you to know that the word "sudden death" reference to vice conditions, red light districts, etc., originate with a select few of these disgruntled property owners and when the list is scanned carefully it will be found that the same bunch, who have been actively opposed to the present administration since the town was incorporated, together with a few defeated candidates for municipal honors in the past, are amongst the leaders. In seeking to besmirch the good name of the town which shelters them in order to gratify their personal animosities, they are shown to be shameless, without civic pride and very undesirable citizens.

In conclusion, may I suggest that a boost for Emeryville is a boost for Oakland, and remind you of the fact that every industry added to the rapidly growing list in Emeryville means more employment for more Oakland workmen and, as a consequence, more and larger pay rolls to be distributed amongst the Oakland merchants. Yours very truly, W. H. CHRISTIE.

## HOUSEWIVES LEAGUE HAS NEW CHAPTER

While members of the Oakland Housewives' League yesterday were appointing delegates to attend an organization convention of a California Consolidated Housewives' League in San Francisco on March 13, the State Federation of Housewives' Leagues, organized in the Oakland City hall on February 1, from which Oakland, Berkeley and San Francisco delegates withdrew, were organizing a rival Housewives' League in Capetown's roof garden. A charter membership of eighty members is claimed. The preliminary work included the adoption of a constitution and by-laws and the appointment of a nominating committee of which Mrs. E. R. Rathbun is chairman. The identity of the other eight committeewomen is not revealed. Mrs. Rathbun was alleged to have brought a membership roll of fifty into the new league yesterday. Organization will be completed at a public mass meeting on Friday afternoon, the session probably to be held in the council chambers of the city hall where the Oakland Housewives' League is located.

According to Mrs. Edward F. Scanlon, San Francisco, president of the state federation which Oakland, San Francisco and Berkeley Leagues failed to ratify, "the new league will fight the high cost of living and promote legislation to protect the people. The first work to be undertaken will be to make milk a public utility and to provide for a municipal distribution."

Resolutions were adopted reciting that whereas the delegates of Oakland League withdrew from organization because of the failure of the league to form in this city a housewives' league which shall affiliate with the state federation. Similar action will be taken immediately in Berkeley and San Francisco.

Mrs. W. T. Cleverdon, first vice president of the state federation, who organized the existing leagues in Oakland and Berkeley last September, is president of the new organization. Mrs. H. J. Platts, Mrs. S. F. Emery and Mrs. E. L. Hubbard.

The leagues sending delegates to the March 13 convention for the purpose of perfecting a state consolidation of housewives' leagues claim that the body of which Mrs. Scanlon is president is "illegal." Mrs. L. C. Grasser, president of the Oakland League, and one delegate yesterday were elected to attend.

### Gold Flees Home to Become Movie Queen

Bound for the land of luxury, fortune and romance of the moving picture folk, 16-year-old Angelina Salina left her home at 543 Forty-third street last Saturday to become a movie queen, and has not been seen since.

According to Mrs. N. S. Salini, the girl's mother, Angelina is now known as Bessie Lovey, the name which she bestowed upon herself as fitting for the new life she hopes to lead as a screen success. She is a considerable screen success, according to her mother. A note informed her mother of her flight and plans.

Angelina was employed as a clerk in the Tully Pharmacy at Claremont and Telegraph avenues. While there she frequently called up different steamship companies and railroad offices to ascertain the passenger rates to Los Angeles. C. V. Tully, manager of the store, believes that the girl is able to take care of herself. Nevertheless, the mother has asked the police to find her.

For the most part medicinal properties ascribed to lichens are imaginary.

## Alameda County to Battle With S. F. and L. A. to Get Three More Legislators

If the present census estimate for 1920 is near correct, and there is every reason to believe that it is a very conservative estimate, Alameda county will have at least one new member of the State Senate and two new members in the Assembly added to its present allotment of four State Senators and eight Assemblymen. This is due to the decennial reapportionment of congressional and legislative boundary lines, which, under the Constitution, must be taken up next January.

Alameda county's population is estimated to be around 140,000.

With the reapportionment of congressional and legislative boundary lines in California, following the census count, there is going to be much friction, according to local politicians, San Francisco already claims that she will get two new State senators and five assemblymen. She also hopes to get a new congressman by coupling up a thickly populated part of San Francisco with San Mateo county, so that a man hailing from San Francisco will have an excellent chance of being elected. But, according to local authorities, San Francisco will have some stones to turn over before she accomplishes her ambitions.

If the other counties throughout California have increased proportionately, San Francisco, there will be little hope of any county getting any more representatives to the state capital than there are at the present time.

According to State Senator Arthur H. Reed, Alameda county, Los Angeles county and San Francisco county have increased in population proportionally over the rural districts. Therefore it will be a fight to see whether San Francisco is benefited by the increased population in Alameda county, or whether Alameda county is benefited by the increase in San Francisco, and it also remains to be seen if Los Angeles will wrestle away from both Alameda county and San Francisco that which San Francisco and Alameda counties both anticipate. With the increased population proportionately in the three counties of Alameda, Los Angeles and San Francisco, over that of the rural districts, it remains to be seen which county will benefit the most as a result.

There are also situations existing in other parts of the State which may eliminate San Francisco's chances of securing more than one new Senator and two new Assemblymen. Where there is one Senator there are supposed to be two Assemblymen. Santa Clara county has two Senators and two Assemblymen. Whether Santa Clara county has one too many Senators or not, enough Assemblymen, is a question which may have a great deal to do with the situation. On the other hand Fresno county has one Senator and four Assemblymen. If Fresno county needs another Senator, then San Francisco's chances of coupling up with San Mateo county to form another congressional district are reduced.

Alameda county will either receive one new Senator and two new Assemblymen or neither Senator nor Assemblymen.

### COPS, CARROTS, TRAPPERS, CAGE, CATCH MONKEY

PIEDMONT, March 9.—It took three carrots. Three policemen. Two cages. Seventy-five feet of twine. Four trapping experts.

And a crowd of spectators two hours later, "Snookum," the monkey pet of a Piedmont family, to his leash from which he escaped three months ago. He was only discovered yesterday at the farm of Gustav B. Beck of the Claremont Country Club.

Four Piedmont policemen under Sergeant L. F. Suhl responded. Four trapping experts from Oakland were also sent for. Two hours of waving carrots and of monkey-calling by the animal experts were required before "Snookum" was returned to his cage.

### Reward Offered for Dead Woman's Name

Final effort to discover the identity of the woman whose body was found near Martinez on November 10, 1919, and who was believed to have been murdered, was made today by Contra Costa county and Chief August Vollmer of Berkeley mailed to every dentist in the United States and Canada a short of the woman's mouth. With the chart, which it is believed will be recognized by the one who performed dental services, went an offer of \$300 reward for information leading to the identification.

Following the discovery of the body it was taken to Berkeley for scientific identification. Dr. W. A. Cough prepared the chart.

**VINEGAR COST JUMPS.** Heavy consumption of apple cider as a beverage substitute for alcoholic liquor is given as the cause of an advance in the price of cider vinegar of three cents on the gallon put into effect by wholesale dealers this week. Many of the vinegar factories, dealers say, have stopped manufacturing vinegar and turned their attention to apple cider.

**LOTTERY SLIPS COST FINE.** Alfred Golas, arrested at 714 Franklin street last night by Sergeant E. W. Brock on a charge of having lottery tickets in his possession, was fined \$10 this morning by Police Judge George Samuels.

## RAIN IS DUE OVER ENTIRE STATE TODAY

A light but gentle rain began this morning throughout the northern section of the state. Conditions are favorable for rain throughout California tonight and Wednesday, according to United States Weather Observer G. H. Wilson. The forecast is for probably rain tonight and Wednesday throughout the state with from fresh southwesterly to moderate southerly winds.

Southwest storm warnings were ordered displayed at Point Reyes. Between 5 a. m. and noon today .53 inches of rain fell in this city and vicinity. A heavy precipitation was forecast for tonight and tomorrow.

The storm extended as far south as San Diego, where a trace fell before noon, the weather bureau reported. The precipitation at Sacramento between 5 o'clock and noon was .10 and at San Luis Obispo .02. Pronounced rainfall, however, visited these parts after the official registration had been taken. The precipitation in the bay district this morning was brisk.

Orville reported .43 inches of rain up to 7 o'clock this morning. At the same hour Orland had .10; Rocklin .05; Stockton .05 and Santa Rosa .30.

There are 50 inches of snow on the ground at Summit 4 at Emigrant Gap, 25 at Huntington Lake and 19 at Inskip.

### Wife Asks Divorce, Desertion Charge

Nelson Dwight Phelps, listed in the telephone directory as a manufacturer's agent, living at 2723 Claremont boulevard, Berkeley, is sued for divorce on the charge of desertion in a complaint filed today. Mrs. Phelps alleges that her husband willfully deserted her on February 25, 1918. They have a son, Nelson Jr., 15 years of age, of whom the complaint states the court need not make any provision for his custody because he is over 14 years of age. The complaint was filed by attorney John W. Preston of San Francisco.

**TAT TRUANT IS HELD.** Clarence Eldridge, a 15-year-old runaway from Taft, Cal., was intercepted this morning at Thirteenth and Clay streets by Special Officer Foley. The police had received a request from the police department of Taft several days ago to detain the boy if seen in Oakland. The youth was lodged in the Detention Home and the Taft police were notified.

**DISTURBANCES REPORTED.** Following reports to the police that men were following shipyard workers from the vicinity of the yards to their homes in East Oakland and subjecting them to annoyances, the police of the Eastern Division have been instructed by Chief of Police J. F. Lynch to maintain a sharp lookout for cases of this nature.
